About us

English~Bemba dictionary is translated, designed, written and programmed by [Chanda Fungamwango Mark](#) a software developer and teacher by profession. This pdf is a learning tool

targetted at anyone wishing to understand the meaning of english words in bemba and improve their vocabulary.

I invested my prominent time in the development of this amazing educational tool as I discovered that many learners especially those in rural based schools face a lot of challenges with english comprehension and this hinders them from having a required interaction and participation in the learning process.

This dictionary consists of a great number of words with the translation accuracy of approximately 95%. Each word is accompanied with an example both in english and bemba so as to cement the comprehension. Am veraciously convinced that this tool will help you learn english in no time and begin speaking like a pro!.

Note: This dictionary is officially available on [Bemba dictionary web](#) where you get the interactive experience with additional features such as:

- Personal quiz
- Friend quiz challenge
- Leaderboard
- Word searching capability
- Text to speech mechanism
- And more! you can just click on this link: [Bemba-dictionary web App](#)
